

# Earl Brando A. Andrino

M.D. Echavez Street Maguikay, Mandaue City, Cebu | 09686117835 | earlbrandx@gmail.com

## Objective

Aspiring software developer with hands-on experience in mobile and web development, eager to contribute to innovative tech solutions. Passionate about learning, collaborating, and creating impactful applications in dynamic team environments.

## Projects

### Capstone Mobile-based Service App

- One of the developers and the project manager responsible for creating the booking and task assignment features for both clients and service providers.
- Integrated Firebase for user authentication and real-time data updates.

### Expense Tracker System

- Created a financial management system to help users track income and expenses efficiently.
- Collaborated during the Alliance JumpStart Program 2024 to deliver a working prototype.

### Shibuya Figurine Store

- Built a simple e-commerce store with REST API-based backend for product data manipulation.
- Deployed with core functionalities: product viewing and add-to-cart system.

### Hackathon App - UC ICT Congress

- Built a mobile app to improve transparency in the hiring process for job seekers and companies.
- Collaborated in a team during a university-wide hackathon.

### Web-Based Enrollment System

- Implemented backend logic for an educational institution's enrollment system.
- Handled data validation and user management modules.

### Desktop-Based Enrollment System

- Created a desktop-based solution for managing student data and enrollment records.
- Optimized for local deployment and offline use

## Experience

### Accenture Academy – Intern

- Completed Udemy courses on frontend and backend development learning paths.
- Accomplished comprehensive training in Frontend Development using React and Angular, with hands-on experience in responsive design and version control using Git.
- Gained foundational skills in Backend Development and core Java programming through the Java Masterclass Tutorial.

### Simple ECommerce Cosmetics Website – Client Based

- Developed for a client project for school purposes, focusing on product listing and checkout flow.
- Designed and deployed a visually appealing and responsive e-commerce platform.

## Education

University of Cebu-Banilad, Cebu City

### Bachelor of Science in Information Technology

(2021 - 2025)

## Technical Skills

**Languages:** Kotlin, C#, JavaScript, Java, Python

**Frameworks & Tools:** ASP.NET, React, Firebase, MongoDB, Robot Framework, Selenium, Stripe, Git

**Others:** MySQL, MSSQL, Vercel, Render, Wit AI, Microsoft Office Suite

## Certifications

Certificate of Completion - Alliance JumpStart Program

Certificate of Completion – Accenture Academy Internship
